DETAILED ACTION

Allowable Subject Matter

- 1. Claims 16-23,27-34,38-46 are allowable over the prior art of record.
- 2. The following is an examiner's statement of reasons for allowance:

Regarding claims 16,22,30,34,38,39, the claim limitation pertaining to a third or fourth or fifth probability calculator, wherein said third or fourth or fifth probability calculator calculates said probability based on said first and/or second language model, if said conditional words have been judged as containing only non-disfluency words by said second judging processor is not taught in prior art. In addition, the claim limitation pertaining to a third judging processor, wherein said third judging processor judges whether a word immediately preceding said object word is a disfluency word; and a fourth or fifth probability calculator, wherein said fourth or fifth probability calculator calculates said probability based on said first and/or said second language models, if said preceding word has been judged a disfluency word by said third judging processor is not taught in prior art. Furthermore, it would not have been obvious to one of ordinary skill in the art at the time the invention was made to modify the teachings of the prior art of record to obtain the recited limitations as noted above.

With respect to the prior art of record, the combination of Padmanabhan et al., Tang et al. and Stolcke et al. teach a second processor with a first language model and a second probability

Application/Control Number: 09/748,542

Art Unit: 2655

÷

calculator to that deal with words that have been judged non disfluent(Fig 2 (3,5, 8)). However, the combination of Padmanabhan et al., Tang et al. and Stolcke et al. do not teach a third or fourth or fifth probability calculator, wherein said third or fourth or fifth probability calculator calculates said probability based on said first and/or second language model, if said conditional words have been judged as containing only non-disfluency words by said second judging processor. The combination of Padmanabhan et al., Tang et al. and Stolcke et al. teach the use of a judging processor and a fourth and fifth probability function for determining the location and type of disfluent word. The combination of Padmanabhan et al., Tang et al. and Stolcke et al. do not teach a third judging processor that judges whether a word immediately preceding said object word is a disfluency word; and a fourth or fifth probability calculator, wherein said fourth or fifth probability calculator calculates said probability based on said first and/or said second language models, if said preceding word has been judged a disfluency word by said third judging processor.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee.

Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Opsasnick, telephone number (703)305-4089, who is available Tuesday-Thursday, 9am-4pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ms. Doris To, can be reached at (703)305-4827. The facsimile phone number for this group is (703)872-9306.

Application/Control Number: 09/748,542

Art Unit: 2655

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group 2600 receptionist whose telephone number is (703) 305-4750, the 2600 Customer Service telephone number is (703) 306-0377.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
